Junior Software Engineer

I am a software engineering student learning Javascript, React and Python. I am well prepared to succeed as a software engineer based on my experience as an attorney where I handled up to 60 cases at once, independently and as part of a small team.

SKILLS & EXPERTISE

Javascript + HTML + CSS + MongoDB + Express + Node + React
Problem Solving + Attention to Detail + Exceptional verbal and written communication skills

TECHNICAL PROJECTS

Emilio's Blackjack - https://3campos.github.io/Project-1/ | Javascript | HTML | CSS |
My take on the classic card game, using a 52-card deck. I typed 3,000 lines of code consisting of multiple functions to facilitate random dealing and play.

Ollivanders - https://ollivanders-wands-app-ec.herokuapp.com/ | Javascript | HTML | CSS | MongoDB | Express | Node |
I built an inventory of wands from the viewpoint of Ollivander of the Harry Potter series. I added styling to make it appear magical, including light-blue shadowing for cards in the inventory and a levitation effect on the wands.
